Product Installation Sheet

Making the most of your Décor floor

We recommend an upper limit of 25m² for Decor products, however if you have a larger space, there are many different ways you can make the most of your floor. For example you can break it up with planks.

Below is an example of how you can utilise your space.

Shown here are 9 modules each 304.8mm x 304.8mm (12" x 12") divided between each section is a 184.2 x 1219.2mm (7.25" x 48") plank.

If you are working on a project and need additional information or help, please contact Sales@amtico.com
