Modules will need to be tessellated to create design.

Amtico Décor Laying Patterns

Making the most of your Décor floor.

We recommend an upper limit of 25 m² for Décor products. However, if you have a larger space, there are many different ways you can make the most of your floor, such as breaking it up with planks.

Below is an example of how you can utilise your space. Here, 9 modules, each measuring 304.8 x 304.8 mm, are divided into sections by a plank measuring 184.2 x 1219.2 mm.
