Amtico Business Partner

LEOXX

Our Amtico Business Partner LEOXX, based in the Netherlands, created a beautiful project together with Hoogerwerf Projectinrichting for recruitment organisation: Robert Walters.

Their Amsterdam office has been created using neuroscientific research. The result is a unique working environment marked by a sense of community with an open, interactive atmosphere.

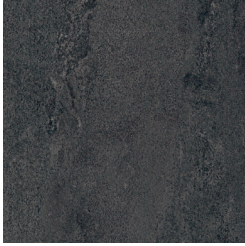

The Grand Café is the central point of the Robert Walters community and features a stunning eyecatcher: an impressive bar of 12 meters long has been accentuated by a stylish floor design, which extends throughout the entire space. This contrasting graphic bespoke pattern in black and white is made from two stone designs from the Amtico Signature collection. Tempus Soothe and Tempus Echo create a contemporary and chic look, which perfectly corresponds with a hospitality aesthetic.

Featured Products:

Tempus Soothe
AROSTE31

Tempus Echo
AROSTE13

Sepia
FS7S4390

Featured Pattern:

Pavestone

Installed in laying pattern Pavestone, stone design Sepia from the Form collection creates a beautiful natural base for the indoor garden. With its soft structure in a mix of cream, beige and sandy tones, Sepia contributes to a relaxed atmosphere and a sense of calm and peace.
