Featured Oak, Weathered Oak & White Ash

University of Bristol

Location: 33 Colston Street, Bristol

Sector: Student Accommodation

Collection: Amtico Assura, Amtico Entryway, Amtico First & Amtico Spacia

Products & Laying Patterns: Quill Sable, Ruffian Tan Tetons, Smoked Grey Oak, Featured Oak, Inked Cedar, Weathered Oak & White Ash

Over 2,000m² of Amtico flooring was chosen for a stunning refurbishment of student accommodation at the University of Bristol.

Owned and managed by the University, 33 Colston Street is a six storey building in the centre of the city. Comprising 112 en-suite rooms with self-catering facilities, as well as shared social study spaces and lounges, all areas utilise Amtico LVT flooring to offer a superb blend of durability and eye-catching designs – complementing the modern and contemporary interior.

Amtico's collections have been utilised throughout the building to maximise their individual strengths. Upon entering, Amtico Entryway matting offers a tough and resilient barrier to ensure grit and moisture is removed from occupants' shoes. This seamlessly flows into the light and relaxed social spaces

that feature a selection of Woods from the Spacia range. Laid in an elegant Herringbone pattern, this impressive flooring design not only provides Colston Street with an elegant and specialised finish, but also adds an interesting focal point to the communal spaces.

Continuing through the building to the accommodation areas, every bedroom benefits from the durability and charming Wood designs of Amtico First, laid in a Stripwood pattern. Finally, in the shared kitchens, safety and performance are prioritised by utilising Amtico Assura, which provides added slip resistance and a robust 1mm wear layer.

University of Bristol

amtico first

Amtico First offers a practical design solution for light commercial environments. Combining unrivalled performance with outstanding value for money, the collection features a durable 0.3mm wear layer.

Amtico First consists of 54 versatile wood, stone and abstract designs, available in a range of tile sizes and surface finishes. A seven-year warranty is supplied as standard.

All bedrooms at 33 Colston Street feature Amtico First's high quality and enduring finish, with Smoked Grey Oak presenting cool grey colourings and a natural grain for a clean and contemporary finish.

7YR COMMERCIAL
WARRANTY

amtico spacia

Designed to last, Amtico Spacia comprises 104 products and patterns across Wood, Stone and Abstract palettes that deliver exceptional floors. The Spacia collection of products offers design-led quality along with superb durability, thanks to a 0.55mm performance wear layer.

By laying Featured Oak, Weathered Oak and White Ash in a Parquet pattern, Oxford Architects achieved a high-end, bespoke feel in the social spaces.

Laying Patterns

Herringbone pattern

Utilising an eye-catching Herringbone pattern in Colston Street's social spaces, occupants and visitors are provided with a distinctive introduction, drawing the eye deep into the building and providing a feeling of space.

Stripwood pattern

A Stripwood laying pattern was used in bedrooms and kitchens to create warm and comforting areas. In addition, Stripwood was used to house the Parquet pattern in the main social spaces.

“We’ve worked with Amtico on a number of projects before, so were aware of the wide range of design options available, as well as how to best apply the different collections across specific areas of the building. We are especially pleased with the flooring in the social spaces, where we had more design scope, allowing us to create a striking space using a selection of Woods.

“The Assura flooring also ticked all of the boxes when it came to safety and performance in the kitchen areas, which was a key requirement for the University.”
