Bespoke Small Parquet in Cornish Oak, White Wash Wood & Shore Oak

When your office is a 46 storey glass tower overlooking Sydney Harbour and Opera House, you need an interior that's every bit as spectacular.

Amtico Signature Parquet was used as a basis for the bespoke floor, with areas of Cornish Oak, Shore Oak and White Wash Wood flowing into each other in different areas of the office.

Cornish Oak perfectly offsets the cool marble surfaces in the kitchen, while the White Wash Wood walkways help identify zones, and promote a sense of space. The calming grey tones of Shore Oak create a base for the meeting spaces.

Laying Pattern

Small Parquet

This timeless, eye-catching design was utilised across both floors of the project to celebrate the varied beauty of the shades of wood used, while still providing a modern, contemporary feel. The use of this pattern helps the interior maintain a strong visual identity, as well as allow a seamless transition between different areas.

Bold statements. Big ideas. What our clients say.

“Our main objective for FM Global was to create a feature Breakout space that would connect employees and foster a greater sense of community. Centrally positioned within the fit out, 3 main corridors lead into the Breakout space consisting of a communal kitchen, lounge and dining area. Amtico planks allowed us to uniquely define each of these areas within the Breakout space using various coloured timber tiles laid in a herringbone pattern with a gradient between each transition to soften the edges. Overall it was a successful outcome for the client, and we would happily work with Amtico again.”

Elle Williams
Designer, Gensler

Collection Overview

Hard surface

▼ Glue Down LVT

		Wear layer	Acoustic option	Warranty (years)	Total products	Total sizes
