

Amtico Project

Bicocca Village

Milan, Italy

Retail

Amtico Spacia,
Amtico Signature

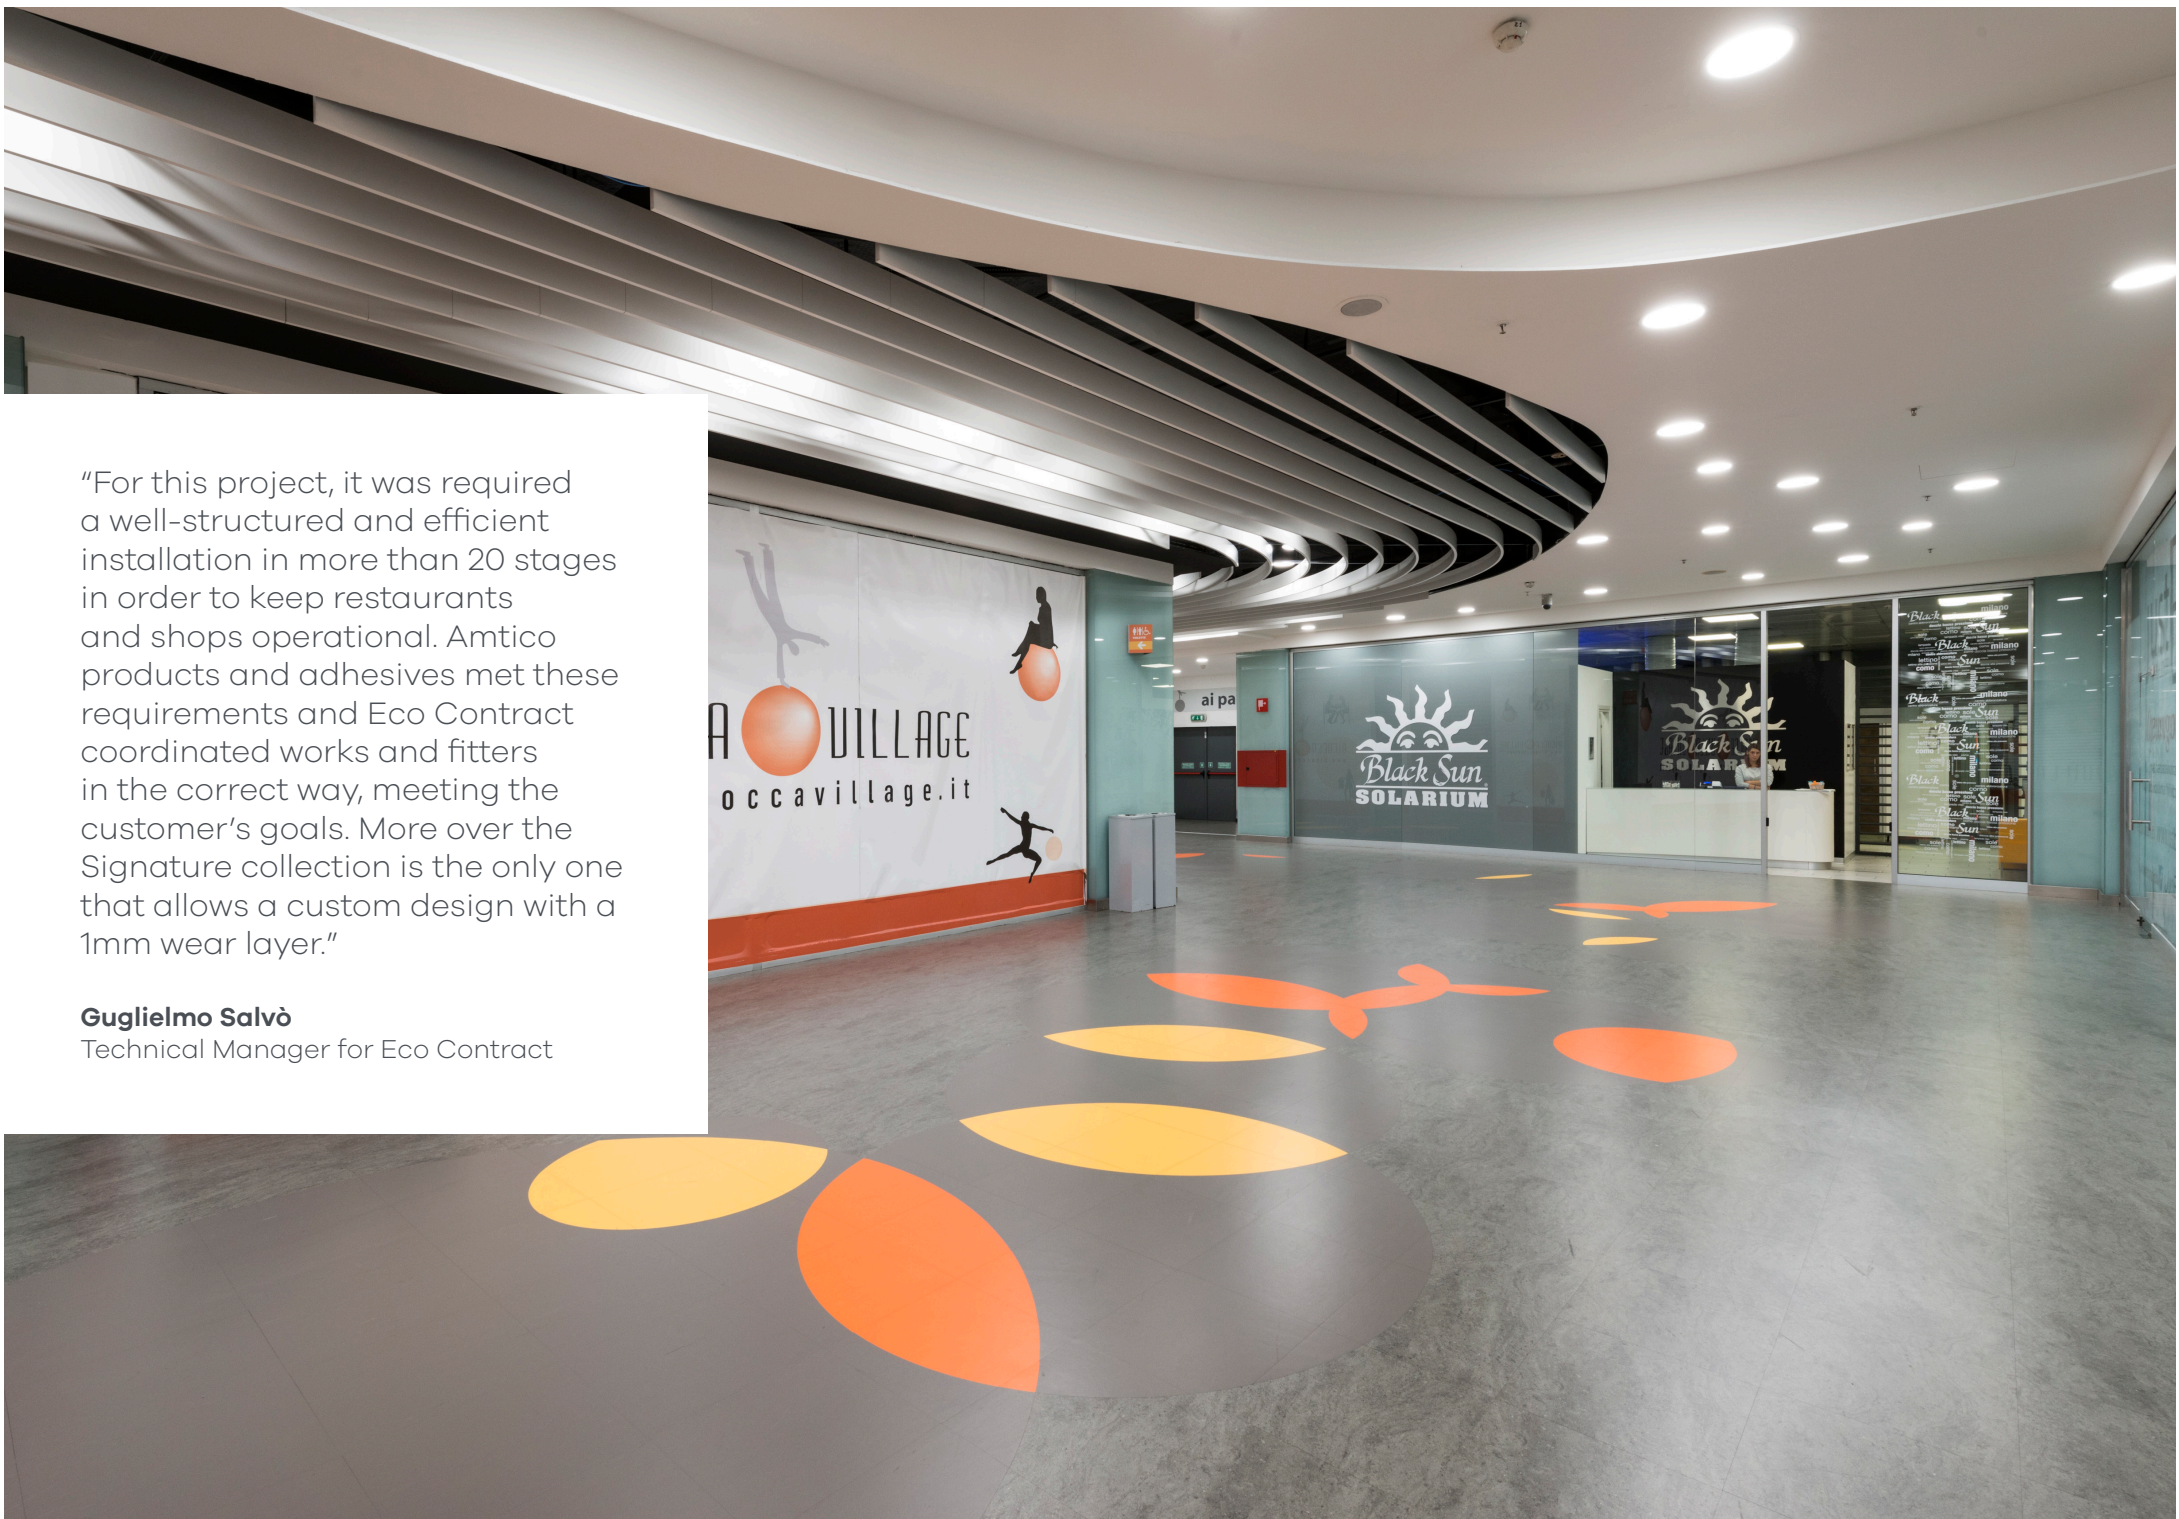

**Hosting more than 400,000 visitors each month
for activities to it's: shops, cinema, playground,
bowling, gym and exhibitions area.**

As part of the renovation work, a dynamic, colourful and sparkling floor design was installed to dress the ground floor shopping area. Amtico LVT was selected for its hardwearing performance, perfectly suited to the heavy traffic of a shopping centre. On the upper levels, a food court is made up of zones for relaxation, breaks and restaurants; where the floor helps distinguish these spaces through changes in material and colour.

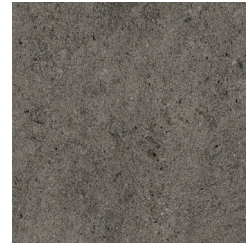

"For this project, it was required a well-structured and efficient installation in more than 20 stages in order to keep restaurants and shops operational. Amtico products and adhesives met these requirements and Eco Contract coordinated works and fitters in the correct way, meeting the customer's goals. More over the Signature collection is the only one that allows a custom design with a 1mm wear layer."

Guglielmo Salvò
Technical Manager for Eco Contract

Featured Products:

Stria Rock
AROSMS33

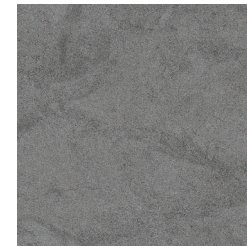

Napoli
AROACF75

Sevilla
AROACF64

Sherwood Oak
SS5W2532

Ceramic Dark
SS5S3566

Ceramic Flint
SS5S2594

Featured Pattern:

Bespoke

Bicocca chose to do a bespoke flooring pattern which created an inspiring & bold statement flooring giving customers a unique shopping experience as well as stripwood in the food court. With Amtico's advanced cutting capabilities and bespoke service, Bicocca were able to custom design a pattern for the main common areas. Within the eatery area, a standard stripwood laying pattern was used.
