

Amtico Project

OCO Westend HQ

Paisley, Scotland

Office

Amtico Form,
Amtico Spacia 36+

The OCO Westend Headquarters has been transformed. Working with Form Design Consultants LTD, an inspiring location for their team to collaborate and enjoy has been created featuring Amtico Form and Amtico Spacia 36+.

This stunning refurb offers a calming environment for the OCO team, with a key focus on their health and wellbeing, whilst maintaining practical and durable finishes.

The use of Form's Shell Oak flooded throughout the office's first floor spaces, provides a clean, natural look with its subtle sandy tones and real wood aesthetic. Flowing through the walkways, desk spaces, and breakout areas this stunning oak offers a traditional and timeless finish.

Featured Products:

Shell Oak
FS7W8580

Featured Pattern:

Stripwood

Laid in a classic Stripwood laying pattern, the subtle sandy tones of Shell Oak create a clean aesthetic and a sense of direction throughout the open office layout. Stripwood is ideal for a traditional wood floor style and beautifully emphasises the naturally inspired tones of the grain throughout the floor in a minimalist way.

Amtico Spacia 36+, our enhanced slip resistant range, has been used in private office rooms, bathrooms and adjoining kitchen facilities. This incorporates a beautiful ceramic finish of pale greys in Plaza Concrete.

The final feel is that of a contemporary, open space which not only looks sleek but also offers impressive protection against slips – an ideal solution for areas more exposed to potential spills. This stunning refurb offers a calming environment for the OCO team, with a key focus on their health and wellbeing, whilst maintaining practical and durable finishes. Spacia 36+ meets the BS EN 13845 Enhanced Slip Standard by using a unique, in-house manufacturing technique which distributes slip resistant particles throughout the wear layer of the product, offering consistent performance over the floor's lifetime.

Featured Products:

Plaza Concrete 36+
SG5S3070

Featured Pattern:

Uniform Tile

The use of Uniform Tile, a timeless pattern, has created a modern look, with the soft tonal variation of Plaza Concrete creating a sleek and uninterrupted finish. Uniform Tile is an ideal laying pattern to flood spaces. Its minimalist finish offers the perfect canvas for other design elements to elegantly zone areas.
