## Happy Valley Resort

---

Szklarska Poręba, Poland

Hospitality & Leisure

Amtico Signature,  
Amtico Spacia

Amtico Business Partner  
Carpet Studio

**There is no name better suited to this resort: 'Happy Valley', which reflects the atmosphere of the entire concept.**

Located close to the border of the Czech Republic, Happy Valley Resort can be found in a quiet and picturesque part of Szklarska Poręba, Poland. 750m<sup>2</sup> of Amtico Signature and Spacia design flooring were installed in the reception, the restaurant, the corridors and the spa. Due to the large window front, guests can enjoy breathtaking views of the mountains surrounding the resort.

The floor design supports the visual enlargement of the area by using laying patterns such as Large Parquet and integrated zoning with Polygon Key Mini, which helps create depth and defined sections. The combination of different wood designs reinforces the connection with nature by merging the outdoors with a cozy interior, which offers the utmost comfort for a valuable stay, devoid of worries.

## Featured Product:

**Pale Ash**  
SS5W2518

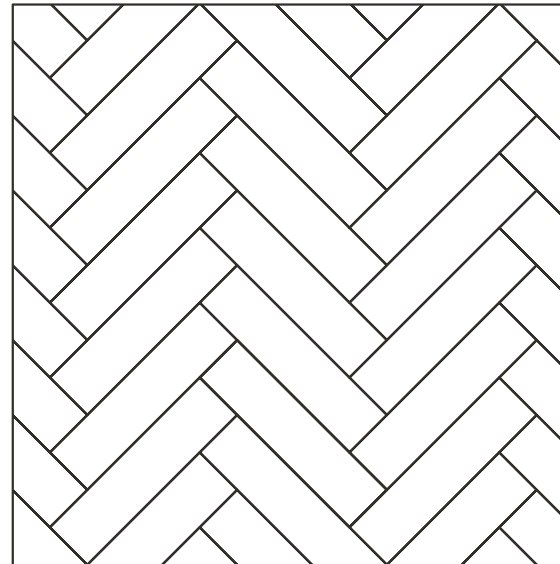

**Featured Oak**  
SS5W2533

**Blackened Spa Wood**  
SS5W3025

## Featured Pattern:

### Large Parquet

Parquet is one of our most enduring patterns that remains a popular choice. In this project, different wood designs were mixed in a Large Parquet format to create accents and perfectly demonstrate the varied grains and delicate textures in the woods.

## Featured Product:

**White Oak**  
AROW7520

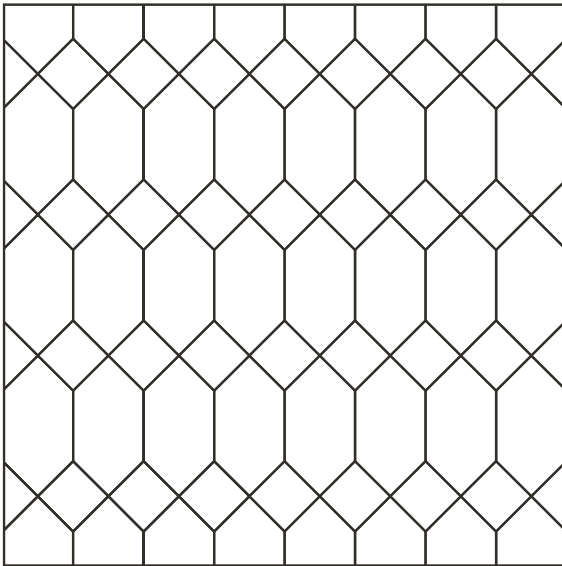

**Reclaimed Oak**  
AROW7870

**Ink Wash Wood**  
AROW8230  
(Discontinued)

## Featured Pattern:

### **Polygon Key Mini - EP461**

A bold geometric pattern with a strong aesthetic, Polygon Key Mini has been designed to designate beautiful focal points and feature areas. It works well with other patterns, such as the Parquet as seen in this concept, and can be used for the visual zoning of rooms. By experimenting with colour combinations from the Amtico Signature collection, a stunning, unique flooring design has been created.
