

# Amtico Project

## Croydon College

London, UK

Education

Amtico Signature

**Croydon College, a bustling and lively environment located in England's capital, supports over 8,000 students a year with their further and higher education studies.**

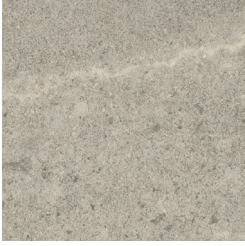

Olivers Contracts have transformed Croydon College's refectory using Amtico Signature, providing the students and staff with a considered and vibrant space to recharge. Durability was a key consideration due to the high footfall of the space; Amtico Signature provides the perfect solution, achieving an enduring flooring which does not compromise on the aesthetics.

The use of Whitley Stone and Shottery Limestone laid in Herringbone tile creates a distinct design; the colours of the two balance beautifully with their neutral palette whilst creating a fun and contemporary space.

Whitley Stone laid in Broken Bond continues throughout the walkways providing clear zones, whilst keeping the design consistent and cohesive. This tailored flooring design not only provides an enhanced environment, but with Signature's 20-year commercial warranty it also delivers a truly functional space.

## Featured Products:

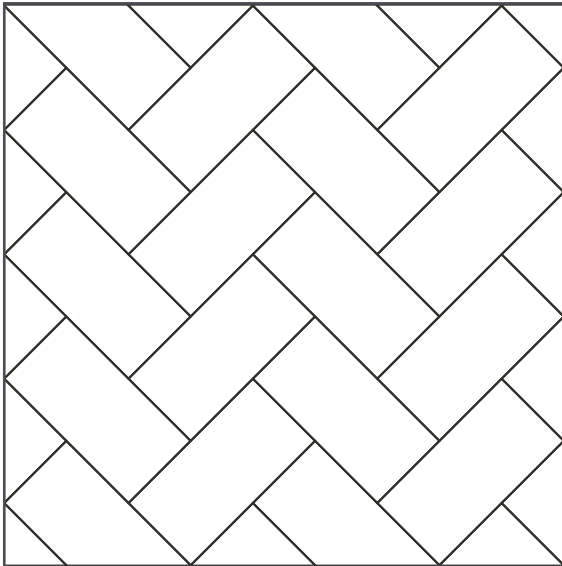

**Whitley Stone**  
AROSMA36

**Shottery Limestone**  
AROSLK15

## Featured Pattern:

### Herringbone Tile

By creatively laying alternating coloured tiles in Herringbone, this classic laying pattern has been reinvented to create a modern finish. The geometric pattern complements the contemporary design and adds dimension to the large commercial space.
