

Amtico Project

Café Alice, Krakow

Krakow, Poland

Hospitality & Leisure

Amtico Spacia

Amtico Business Partner
Carpet Studio

Miracles have come true in this project. Café Alice is located in Krakow's shopping centre and transports its visitors to the world of their childhood dreams.

The overall concept is inspired by Alice in Wonderland and features many magical details both in the visual design and on the menu. The black and white colour scheme is enhanced by red and green accents, creating a mystical atmosphere.

The 300 m² floor concept features a classic checkerboard pattern that integrates perfectly with the fabulous details of the interior. Two beautiful stones from the Amtico Spacia collection were selected for this purpose: "Black Marble" and "Ceramic Frost". Together they form a great contrast and emphasise the magical atmosphere of this place.

Featured Products:

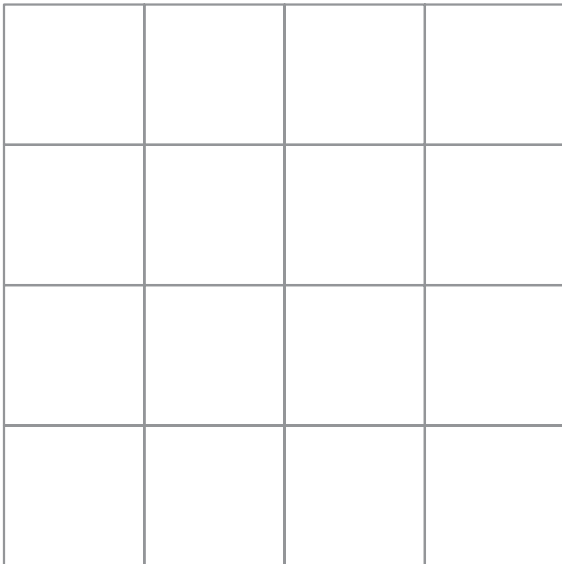

Ceramic Frost
SS5S1591

Black Marble
SS5S2621

Featured Pattern:

Checkerboard

With a wide variety of colour combinations, the simple checkerboard is a solution for elegant design concepts. It is a simple laying pattern using squared tiles that are laid alternately next to each other. Create an extraordinary look with striking colours or rely on the classic black and white look.
