Vittoria on the Walk /  
Vittoria on the Bridge

---

Edinburgh, Scotland

Hospitality & Leisure

Amtico Signature,  
Amtico Décor

**Discover a taste of Italy at The Vittoria Group's restaurants: Vittoria on the Walk and Vittoria on the Bridge. Both restaurants have been finished with Amtico Signature flooring, providing the perfect atmosphere to dine in style.**

Significant Others were appointed to design and deliver the full refurbishment of Vittoria on the Walk, and to update the flooring and tabletops for Vittoria on the Bridge. The two restaurants provide inviting spaces featuring intricate details and a touch of Italian charm, with marble finishes and laying patterns reminiscent of Baroque interiors.

Zoning around bars with Amtico Décor, as well as the use of stripping, clearly define and finish the designs beautifully.

The image shows a restaurant interior with a modern, sophisticated design. The floor is made of light-colored wood with a herringbone pattern. The walls are covered in a textured, patterned material. There are large windows with decorative mirrors and pendant lights hanging from the ceiling. The seating consists of blue tufted chairs and tables. A menu is visible on the table.

"At Vittoria on the Bridge, warm light timber effect vinyl flooring in a French Weave pattern, paired with a soft blue geometric patterned vinyl, perfectly complements the restaurant's existing blue tones, patterned wall coverings, and decorative mirrors. The brass flooring transitions add a touch of elegance, seamlessly tying together the distinctive interiors while enhancing the overall sophistication of the space."

## Featured Pattern:

### **Victorian Star Chester DC624**

Complementing the geometry of French Weave, the bar and service areas of Vittoria on the Bridge are zoned with Décor's Victorian Star. The considered colour combination in a striking star pattern provides impact, and Décor's individually precision-cut pieces with bevelled edges creates an authentic finish.

"At Vittoria on the Walk, we reimagined the beloved local Italian restaurant—a staple in the community for over 50 years—infusing it with a contemporary yet timeless Italian style that honours the rich heritage of the Crolla family. By embracing a refined palette of brass, clean lines, and vibrant pops of colour, we created a bistro that feels fresh and inviting while staying true to its roots."

## Featured Pattern:

### Checkerboard

Featuring alternating square tiles, Checkerboard is a versatile laying pattern. It offers a wide variety of colour combinations, from traditional monochromes to bolder, vibrant alternatives. The choice of marble for Vittoria on the Walk's restaurant creates a luxurious and opulent finish and depth has been created by the considered orientation of the floor.
