Located in Islington, London, Frederick's has been established since 1969. A family-owned restaurant and bar, Frederick's offers a multi-functional space from private dining to weddings. Mackenzie Wheeler Architects were brought in to refresh the space, and it proudly re-opened in early 2025.

The floor design incorporates the best of both worlds, from a classic wood finish to a vibrant bespoke geometric pattern. Greeting customers is a beautifully finished bold design, using a palette of blues which is balanced with softer neutral tones and complemented with rich, red wood details. The overall effect is a warm inviting environment which is bursting with charm.

"When designing for Frederick's, Amtico was the obvious choice. Our client is a returning Amtico customer and has been impressed with the large range of options available, as well as the product's longevity and ease of maintenance. Furthermore, Amtico's bespoke capabilities meant that we were able to bring our client's vision to life."

Featured Pattern:

Chantilly Weave DC539

Creating beautiful movement across the floor, Chantilly Weave is inspired by traditional parquetry floors and features intersecting pieces to create an intricate woven pattern. Specified from Amtico's Designers' Choice, a curated selection of ready-to-use combinations, DC539 showcases Whinlatter Oak's strong grain and dramatic tonal variation. The use of this combination brings a vintage charm to the overall design.
