

# Amtico Project

Cranford Grange  
Care Home

Knutsford, UK

Care Home

Amtico Spacia Safety

**Part of the Care UK family, Cranford Grange is a newly refurbished care home in Mobberly and features stylish finishes providing a luxurious home for residents to enjoy.**

With the wellbeing of the residents at the heart of the design, the extensive refurbishment has considered comfort and style, as well as creating spaces suitable for individuals living with dementia. Social areas have been lifted with bright and open designs, making them a beautiful environment for residents and guests to relax.

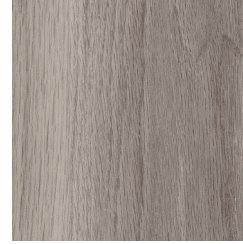

The Bistro and kitchenette area of The Entertainment Room have been finished with Amtico Safety flooring from the Spacia collection. Amtico's Safety flooring meets the BS EN 13845 Enhanced Slip Standard, which is guaranteed for the product's lifetime as well as providing antimicrobial protection. This multi-layered defence is the ideal choice for areas more exposed to potential spills.

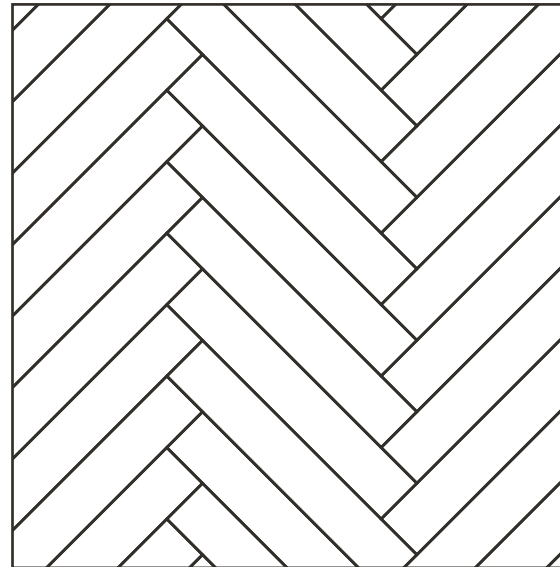

## Featured Products:

**Nordic Oak**  
SG5W2550

## Featured Pattern:

### **Herringbone**

A timeless and popular laying pattern, Herringbone adds a touch of opulence to the space whilst celebrating the natural details of Nordic Oak. Herringbone is available using standard plank sizes and the overall finish is luxurious and welcoming.
