## The Beach Club

St. Brelade, Jersey

Hospitality & Leisure

Amtico Form,  
Amtico Spacia

**Designer**  
Axis Mason

**Overlooking the stunning coastline of St Brelade's Bay,  
The Beach Club is an idyllic location to enjoy all day long.**

The Beach Club's interior pays homage to its picturesque setting and incorporates design that embraces nature with wood panelling and furniture. The finish brings the outdoors in with finishing touches such as vibrant plants and fun artwork set against a neutral palette.

Featuring soft curves which is complemented by the floor design, and panoramic views of the coast, the restaurant offers a relaxed atmosphere in a little corner of paradise.

Celebrating nature's finest, The Beach Club uses Wood and Stone finishes throughout. Rural Oak from Amtico Form in a Large Parquet laying pattern incorporates warm honey-tones and is beautifully balanced with Negroni from Amtico Spacia's Terrazzo palette, creating a fun and on-trend finish to the space.

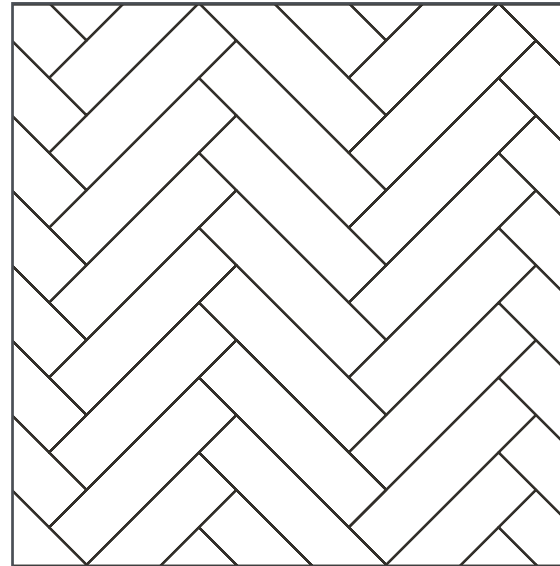

## Featured Products:

**Rural Oak**

## Featured Pattern:

### **Large Parquet: FP157**

Beautiful and enduring, Large Parquet continues to be a popular choice of laying pattern. It showcases the varied grain of Rural Oak whilst staying true to traditional wood floor design. It adds depth and a timeless charm to large commercial environments.

Featured Pattern:

**Bonded Stone**  
Bonded Stone is a subtle laying pattern option which can be created using standard square tile sizes. It delicately offsets the tiles creating a traditional finish whilst letting the fun of the Terrazzo design take centre stage.
