

Amtico Project

Butterfield Bank

St Helier, Jersey

Office

Amtico Spacia,
Amtico Form

Designer
Axis Mason

**Butterfield's Jersey office,
located in IFC 6 in St. Helier,
opened its doors in 2023.**

The interior design was created by Axis Mason, who developed a curated environment to elevate the office culture by fostering interaction in the workplace to cultivate collaboration and innovation.

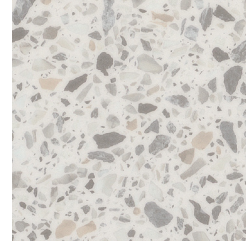

The use of zoned flooring clearly defines workspaces and breakout areas, helping to bring clarity to the space. The vibrancy of the design fosters an environment which helps drive creativity.

Axis Mason worked to find a close match to the marble finish reminiscent of Butterfield's existing offices. The use of Amtico Spacia's White and Black Marbles laid in Checkerboard has created a stylish and traditional look.

Featured Products:

Gibson
SS5S2603

Featured Pattern:

Spacia Terrazzo: Gibson

Amtico Spacia's Terrazzo designs provide an on-trend and beautifully decorative finish to any space. Gibson features a light base with subtle pearlescent chips throughout. Its light tones make it a perfect complementary design when paired with a wood or surrounded by a colour or stone.

Butterfield's break out space uses Gibson laid in a simple pattern, Uniform Tile, which lets the stunning finish of the tile do the talking.
