Amtico Marine

Designer
KTM Design

Coastal Vibes is a characterful 250-seat passenger vessel, offering ticketed trips, themed nights, live music events and private hire for locals and tourists throughout the year.

Sailing from Weymouth Harbour, Coastal Vibe's cruises provide a comfortable and cosy interior space to enjoy the breath-taking Jurassic Coastline. Designed by KTM Design, the concept was inspired by land, sea and sky. The result is a stunning and playful space which mixes pattern, shapes and colour – making it the ideal environment for the versatile demands of the vessel.

Amtico Marine flooring meets MED Modules B & D and carries the IMO wheelmark, ensuring top safety standards. Enhanced with an ionic silver additive for lasting hygiene, it's rigorously tested, officially accredited, and built for exceptional performance and durability. Amtico Marine has been specified throughout the interior deck, finishing the space with a contemporary and stylish design, whilst meeting the highest Marine standards.

Love the look?

Plaza Concrete and Ceramic Frost feature in Check. Castello Stone and Chatham Concrete are recommended alternatives from the new Amtico Marine collection and can be specified in Check using the code: MCP109.

Featured Pattern:

Check: 2 Product - MCP109

Check features alternating colours in square tiles. With endless colour options, Check is an incredibly versatile option. This colour combination creates a neutral palette with cool pastels, offering a softer aesthetic than a traditional monochrome Check. With considered placement, Check has been used to define a walkway.

Featured Pattern:

Herringbone Plank
Honey Oak, laid in Herringbone Plank, has also been incorporated into the design. Its golden tones add a touch of warmth to the cooler stone palette, whilst subtly zoning the seating areas onboard. Herringbone is a timeless laying pattern and can be achieved using standard sized planks.
